

Vector bundles and Jacobians

Yuriy Drozd, Ukraine National Academy of Sciences.

Contents

- Vector bundles and cohomology.
- Line bundles and divisors.
- Jacobians.
- Vector bundles over projective line and over elliptic curves.
- Singular curves.
- Vector bundles over nodal and cuspidal cubics.
- Problem of categorical resolution.
- Noncommutative curves.
- Auslander resolution of the nodal cubic.
- Tilting and its use.
